

From: Janine & Astro Kitty

To: Dr. Spencer Ratnoff & Staff of Oakland Park Animal Hospital

I'm extremely grateful to Dr. Ratnoff and his staff for the past 12 years of professional service and loving care he gave to my cat Astro. Not only are you the best veterinarian in town, but taking the time to show individual personal attention to his needs meant a lot and helped me to understand how to take better care of him.

Astro has had many health issues over the years, and Dr. Ratnoff has saved his life many times, along with always providing detailed information of all medications and procedures possible that would give him a longer, healthy happy life. His staff members have always provided professional care and specifically Kelly always went above and beyond customer service and was dedicated to anything Astro needed to continue his long term needs.

Dr. Ratnoff and Kelly have made me and Astro feel as part of a family and I'm very appreciative of all the love and dedication they have shown up until the ending of Astro's life.

Astro was my best friend, my companion, my little soul mate ... he will forever be in my heart and I'm a better person for knowing him and loving him for the past 18 years. Thanks to Dr. Ratnoff, I know without a doubt I was able to share a much longer life with Astro because of his professional and personal loving care.

Sincerely,
Janine Alascia
